1

Explore Our ADVENTURES

EACH INCLUDE:

- Living History
- Interactive Journaling
- Science
- Geography
- Activities
- Nature Study
- Art

2

Discover Our LANGUAGE ARTS

EACH INCLUDE:

- Phonics or Grammar
- Reading or Literature
- Reading Comprehension
- Interactive Experiences
- Creative Writing
- Handwriting
- Spelling

3

See Our SCIENCE

EACH INCLUDE:

- Nature Study
- Quick Lessons
- Vibrant Books
- Field Observations
- Nature Experiences
- Can-Do Experiments
- Nature Journaling

SELECT TO FIT YOUR FAMILY

Pick and Choose for an Eclectic Experience
OR, Use Any Adventure or Resource Individually

WHY YOUR FAMILY WILL LOVE WINTERPROMISE

Adventures Are OPEN & GO

JUST:
Open your box
Sort your resources
Pick up your guide
Find Week 1
Start!
It's that easy!

Everyone Works TOGETHER

BECAUSE:
Adventures fit a range of ages, streamlining time spent and nurturing your **FAMILY CULTURE**

It's Just So SIMPLE

INCLUDING:
4-day week
Open-and-go learning
Straightforward guide
Intriguing experiences
Ready-to-go activities
Able to take on the go!

A Variety of LEARNING EXPERIENCES

WITH:
Learning experiences that can be tailored to each student's gifts, nurturing their diverse and individual abilities

A Focus on JOY IN DISCOVERY

BECAUSE:
Discovery on one's own creates a joyful, positive connection to learning for a lifetime

It's Charlotte Mason METHODOLOGY

WHICH MEANS:
Rich, living reading
Interactive journaling
Easy-to-do activities
Try-it experiences
Online links and videos

ANIMALS & THEIR WORLDS | Pre-K to 4th
HIDEAWAYS IN HISTORY | 1st to 4th Grade
CHILDREN AROUND THE WORLD | 1st to 7th Grade
AMERICAN STORY 1 | 1st to 7th Grade
AMERICAN STORY 2 | 2nd to 8th Grade
ADVENTURES IN THE SEA & SKY | 2nd to 9th Grade

A PRESCHOOL PROGRAM FOR A YEAR I'M READY TO LEARN

A THEME FOR PRE-K to K

I'm Ready to Learn is a skills-based program for preschoolers -- one that provides a fun introduction to all sorts of learning concepts, including the alphabet, phonics, letter formation, critical thinking and sorting, science, art, and math. It covers four fun-filled themes: At the Farm, In the Garden, At the Pond, and In the Zoo. This program gives you the basics for a one-year discovery of basic readiness skills. If your student shows eager readiness for reading, you can add our "Letters to Little Words" language arts program. If you'd like to explore the themes in more detail, add your own picture books or our "Journeys of Imagination" program, which supplements the themes.

Practice ALPHABET & READING

- Rhyming
- Letter Sounds
- Sound Manipulation
- Simple Sight Words
- Writing Left to Right
- Sound Discrimination
- Beginning Handwriting

Discover COUNTING & MATH

- Pairs
- Calendar
- Measuring
- Counting 1-19
- Time & Clocks
- Money & Cost
- Addition & Subtraction

Interactive ART & CREATIVITY

- Coloring
- Categorizing
- Telephone Skills
- Fine Motor Skills
- Tactile Awareness
- Shapes: Circles, Square, Triangle, Rectangle, & Oval

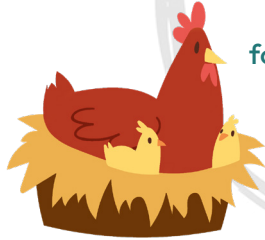

I'M READY TO LEARN

helps you to create an exploratory learning experience for your student that builds their creative and critical thinking skills.

This provides an all-important foundation for future learning and growth, as well as offering them memorable experiences building phonics and numbers understanding -- all in a culture of joy,

KAERYN,
Author of
WinterPromise

YOUR ADVENTURE AWAITS!

DISCOVER ANIMAL LIFE AND ECOLOGY WITH ANIMALS AND THEIR WORLDS

A THEME FOR GRADES PreK-4

Take an animal-focused adventure through seven habitats, diving deep into animal science that will satisfy even the most curious of learners! Take an up-close look at the difference between the tails of different shark species or discover what a giraffe’s tongue can do. Your family might discover animal “clean up” specialties or conduct an experiment on night vision. You’ll also learn about the ways people work with animals and animals work with people. The highlight of this program is the nature journaling students will do every day. They’ll try out nature observations of plants, animals, and insects; sketch natural items and their “one small square” of woodlands or wetlands; enjoy hands-on activities, conduct experiments, collect samples, and immerse in discoveries of all kinds! It’s an incredible natural journey for your family!

Easy-to-Use GUIDE

- Open & Go Format
- Weekly Schedule
- 4-Day Cadence
- Teaching Helps
- Methodology Guide
- Easy Reporting
- Answer Keys

Theme HIGHLIGHTS

- Walking in Wetlands
- Poking About in Polar Places
- Safari on the Savannah
- Wandering the Woods
- Enduring the Heat - Cactus Desert & More!
- Working with Animals

Interactive EXPERIENCES

- Nature Journaling
- Easy Animal Drawing
- Nature Observations
- Build Your Own Dioramas
- Simple Experiments
- Animal Height Chart
- Crafts & Activities

ANIMALS AND THEIR WORLDS

nurtures children's natural curiosity about the world around them and creates a lifelong love of nature. Even the most avid animal lover will discover immersive facts about animals of all kinds and seven key habitats: woodlands, wetlands, arctic, African savannah, tropical rainforest, cactus desert, and coral reef.

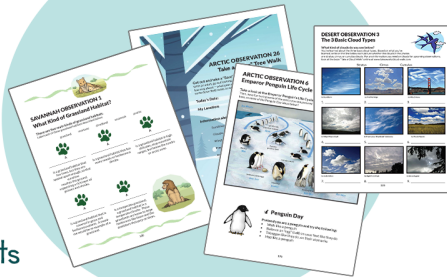

KAERYN,

PEEK INTO WORLD HISTORY IN A YEAR WITH HIDEAWAYS IN HISTORY

A THEME FOR GRADES 1-4

In a twinkling, your young learner will be transported to stops all over the world, peeking in on some of the most interesting events in world history. Your guides will be the caterpillar, Indiana Stickenstones, Sticky the spider, and Chirp the cricket. All along the way, they'll also enjoy fun learning activities, complete a science program, and try picture books we recommend from your library. Best of all, your family will fall in love with one special part of the program -- HIDEAWAYS! Together, you'll create learning play spaces with blankets and cardboard building items, spaces that help them re-enact what they are learning, like a pyramid, a colonial store, or a WWII submarine! So much

Easy-to-Use GUIDE

TRAVEL THE WORLD IN A YEAR WITH CHILDREN AROUND THE WORLD

A THEME FOR GRADES 1-7

Pack your bags to visit 30 countries around the world in our most-popular adventure. Along the way, your family will encounter their cultures and traditions, celebrations and crafts, and learn a lot about world geography! A poignant addition to this adventure is learning about the plight of children around the globe who lack many of the comforts we take for granted every day. The effect of this study on your family will be truly priceless. Highlights of this program include a mid-year break to study the cultural traditions that surround Christmas, and the weekly Cultural Gatherings your family will enjoy that allow you to prepare meals, entertainments or crafts together. Everything is very fun and completely do-able to keep the learning going all year!

Easy-to-Use GUIDE

- Open & Go Format
- Weekly Schedule
- 4-Day Cadence
- Teaching Helps
- Methodology Guide
- Easy Reporting

- Interactive Maps
- Doodle Placemats
- Ways to Get Involved
- Cultural Activities
- Country Symbols & Flags
- Menu Planning

CHILDREN

is an experience that has the power to transform your family' thinking. Beyond the actual journey to faraway places, it takes you inside the lives of families who lack basic necessities and face hardship.

In a tender way, it shares situations of want that open the eyes to all we take for granted, how much we have to be grateful for, how much we have to share.

DISCOVER EARLY AMERICAN HISTORY WITH THE AMERICAN STORY I

A THEME FOR GRADES 1-7

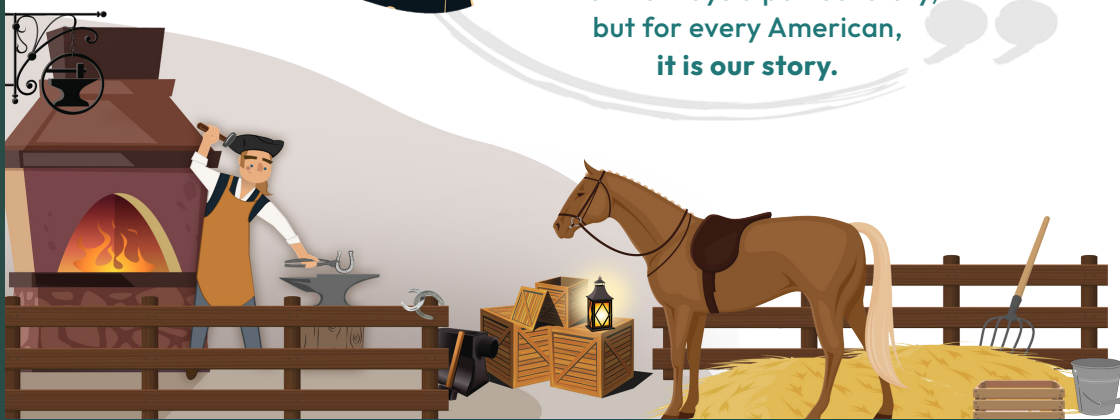

Families love this telling of early American history, starting with the Native Americans who call it home to the continent's discovery and colonization by European nations, and on until frontiersmen opened the West and talk of a Civil War began in the East. Your family will love the stories of courage from America's past and meet exciting Americans who fought for freedom, built a canal, or rode the Pony Express. You'll also learn about native cultures and nations in eight regions across this land and follow the experiences, struggles, and triumphs of African Americans! A highlight of this program is the immersive journaling that cements the learning about places, people, and events. Together, your family can try recipes, tour landmarks, build a colonial village, and more!

AMERICAN I

is a complicated story, but it is one in which many examples of courage can be found -- in pilgrims crossing the Atlantic and in the first Native Americans to offer them friendship; in the inventors and reformers that made our country better, and in the stories of people who survived the terrible injustice of slavery. It isn't always a perfect story, but for every American, **it is our story.**

EXPERIENCE LATER AMERICAN HISTORY WITH AMERICAN STORY 2

A THEME FOR GRADES 2-8

Delve into our American history and culture from the struggle of the Civil War and how it changed our national identity, to the modern age and the technology that has transformed it. Along the way, you'll meet the westward-moving, invention-creating, city-building, store-establishing, business-making, future-loving, fad-introducing American people that contributed to our American culture. You'll also conduct secret missions, help with the war effort, be a robber baron for a day, sing cowboys songs, live the pioneer life, design a city tenement, host oa 50's night, or even create their own newfangled fad! It's all part of a fantastic journey from 1850 to today!

AMERICAN 2

continues the narrative about the people and events that shaped our national character and unique culture.

A highlight this year is to discover so many ways the American culture has shaped our world, and also to follow the brave pursuit of freedom for all by African Americans and others.

DIVE INTO WORLD HISTORY IN A YEAR WITH ADVENTURES IN THE SEA & SKY

A THEME FOR GRADES 2-9

Come aboard and look at history in a new way! See how the technology of sail determined which nations rose and fell and how these historical events influenced our modern world. You'll discover the earliest boats, and follow the path of kingdoms like Egypt, Greece, Rome, and the modern nation-states that came to power -- all thanks to their understanding of sailing tech. You'll also follow the story into the skies with flight and space tech, watching as flight played a role in our modern times. In your science study, meanwhile, you'll dive into the science of oceans, weather, and space. It's a great year your entire family will enjoy, filled with adventures from throughout history!

Easy-to-Use GUIDE

- Open & Go Format
- Weekly Schedule
- 4-Day Cadence
- Teaching Helps
- Methodology Guide
- Easy Reporting
- Answer Keys

Theme HIGHLIGHTS

- Sailing & Flight
- Ship Technology
- Kingdoms at Sea
- Space Exploration
- Ocean/Marine Science
- Weather Experiments
- Space & Astronaut Study

Interactive EXPERIENCES

- Captain's Log Journal
- Sea and Sky Observations
- Quick Experiments
- Timeline Cards
- Sea Power Videos
- Ocean Conservation
- Pirates, Sharks & More

SEA & SKY

is one of my favorite programs. It follows all of the major world powers as they rise and fall, largely due to their use of sailing knowledge and tech.

It provides each student with an understanding of world history as a whole, preparing them for a more detailed study of history.

WINTERPROMISE TIMELINE TIMELINES IN HISTORY

ANCIENT TO MODERN TIMELINE

Students will literally create their own history book, one that is as much a journal of their school life as it is a timeline! Each student usually enjoys having his own, as it is a personal journal in which they can record any information they'd like. This makes this wonderful resource a beautiful keepsake as well as a record of all of their learning. It will become both a reference book and a scrapbook of memories they'll never want to leave behind! Works with our Theme Programs Timeline Figures.

LANGUAGE ARTS

Can Be Used with Grade Levels

ADVENTURES IN PINE HOLLOW | Pre-K to 3rd Grade
ELEMENTARY LANGUAGE ARTS | 3rd to 6th Grade
JUNIOR HIGH LANGUAGE ARTS | 7th-8th Grade
HIGH SCHOOL LANGUAGE ARTS | 9th-12th Grade

WELCOME TO OUR UNIQUE FOREST WORLD ADVENTURES IN PINE HOLLOW

5 LANGUAGE ARTS PROGRAMS FOR YOUNG READERS

Adventures in Pine Hollow is designed to engage students so thoroughly that whether they can't wait to read or would rather wait forever, they are pulled into a forest world, where they join critter adventures and forget there's learning going on! Students meet critter friends that they follow and keep throughout their several year reading journey.

In early adventures, Mac and Nip Squirrel join Snap the Bat and Fin the Frog in Pine Nut Park. New friends join, and eventually so does their son, Acorn Squirrel. In later years, Acorn makes the move to Pine Hollow and finds new buddies Dash and Scoot Chipmunk, Tatty Mouse and Dr. Derby, the grouchy Badger who look out for hungry owls, mischievous raccoons, and the treacherous fox, Rascal Dickens.

Our exclusive stories, phonics pages and our unique write-in readers, handwriting sheets, and even spelling and vocabulary exercises are all created to support each week's phonics concept. They all work together to create confident readers who can't wait for the next Pine Hollow adventure!

Why Are Programs Not Only Divided by Grade?

Our Early Reading Language Arts are not divided by grade, as all students learn to read at different times and different rates. It's our hope that the informative and lyrical titles given to our language arts programs would help parents place their students in our Early Reading Programs.

A Unique Curriculum

- Forest Critter Settings & Stories
- Active Learning Experiences
- Hands-on Games & Reinforcement
- Intriguing Phonics Pages or Write-In Readers
- Controlled Vocabulary
- Easy to Use

A Unique Approach

- Designed for Multiple Learning Styles
- Active Learning with Provided Games & Activities
- Short Learning Periods Keep Things Changing
- Customizable Scheduling to Slow Down or Accelerate
- Stories with Charm, Substance and Fun Cliffhangers

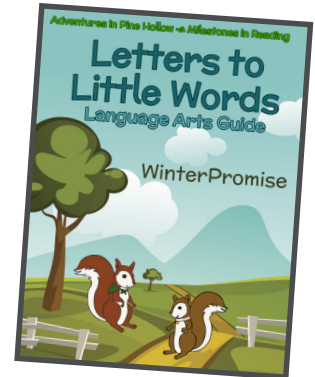

FROM ALPHABET TO THREE LITTLE WORDS

LETTERS TO LITTLE WORDS

YEAR LONG LA PROGRAM FOR BEGINNING READERS

Letters to Little Words is designed for students ready to begin learning letter identification and names, sounds and formation. This program works great for students who haven't yet worked on the alphabet and those who have had some instruction. Each resource in this program is thoughtfully developed to utilize multiple active learning methods — hands-on, visual, auditory, and more. This ensures that every kind of learner succeeds and has so much fun, they don't realize they are learning! Fun and interactive resources guide students in mastering basic phonics, sound recognition, and letter formation.

One example is our Phonics Cards and Character Cards, flashcards that provide pictures of Pine Hollow critters to help students learn how letters are formed and what sounds each makes. The pictures help students avoid mix-ups with backward formation and overcome challenges with dyslexia. Another great resource is our Hands-On Phonics Pack that offers 29 games to reinforce phonics learning with included fun props!

Parents love how young learners can learn in short periods and feel immediately successful. This program also offers creative suggestions which coordinate with age-appropriate themed programs you may be using, such as "I'm Ready to Learn", "Hideaways in History" & "Animals & Their Worlds."

FROM THREE LETTER WORDS TO SENTENCES

SYLLABLES TO SENTENCES

18 WEEK LA PROGRAM FOR K - 1ST GRADE

Syllables to Sentences is a language arts program designed for students who are just beginning to read three-letter word such as bat, win, and pot. This program includes resources designed to continue teaching advanced phonics and word families for increased reading recognition and decoding skills. Students love the fun, short stories in our exclusive easy readers.

An 18 Week Schedule allows for instruction to be easily customized, whether your student needs time to absorb the new material or is ready to rapidly accelerate their learning. Some parents find that some learners need more time after learning the letter sounds and decoding three- to four-letter words before they move on to sentences. Syllables to Sentences is easy to adapt to your student's

unique situation: typical K student ready for structured reading instruction, older learner who is finally ready to pursue reading in earnest, or young, precocious learner who can't get enough of words! It can be sped up, slowed down, or the pace can change as student capabilities suddenly explode. Paragraphs to Pages, designed to follow this program, is an 18-week program that likewise adapts to your student.

Interactive learning experiences also keep students really engaged! No matter what type of learner you have — hands-on, visual, auditory, and so on — resources in Syllables to Sentences will keep the learning fun and successful. Students continue to use two activity resources from Letters to Little Words, the Hands-On Phonics Pack and Phonics Cards & Character Cards, but with phonograms and concepts that are more challenging. Students may go fishing for phonics or make phonics pizzas, or play phonics games with the phonics cards. If you've already purchased these then you won't need to repurchase them for this program. Highly visual phonics pages reinforce each week's phonograms.

FROM SHORT PARAGRAPHS TO EASY TO READ PAGES

PARAGRAPHS TO PAGES

18 WEEK LA PROGRAM FOR K - 1ST GRADE

Paragraphs to Pages begins where the instruction in Syllables to Sentences ends. The program allows students to move from reading simple sentences to several paragraphs. Like Syllables to Sentences, this program works similarly in that it is created to be flexible to meet the student where they are. It includes a half-year schedule that works for most students at this stage of reading. Students that would benefit from a slower, year-long pace can break each day into two halves — reading, comprehension and spelling on one day, with phonics, handwriting, and games on the other.

Paragraphs to Pages begins by covering vowels and then moves its focus onto more difficult phonograms, such as qu, dge and wor. This program is the first in our Early Reading Language Arts to use our write-in readers.

Our write-in readers are unique in that the assignments are all in one place and each week is focused around a specific phonics concept. This is an important distinction between our program and many others, as every resource works together to meet a weekly learning objective. Student reading, reading comprehension, phonics, spelling, and vocabulary learning are all focused around weekly phonetic goals. This thorough and multi-aspect coverage of each phonogram builds strong decoding skills, reading speed, and comprehension.

As with all of our programs, learning experiences engage every type of learner: hands-on, visual, auditory, and so on. Activities and games are outlined and scheduled in the guide, and activities are also taken from our Hands-On Phonics Pack, a resource also used in Letters to Little Words and Syllables to Sentences.

FROM SHORT STORIES TO EASY CHAPTER BOOKS

STORIES TO SHORT CHAPTERS

YEAR LONG LA PROGRAM FOR 1ST - 2ND GRADE

Stories to Short Chapters follows Paragraphs to Pages and focuses on reading comprehension and adding higher-level phonograms. Each day, students read a Pine Hollow adventure passage that presents them with longer words and more reading than they encountered in Paragraphs to Pages.

As they increase their reading speed and comprehension, students will also practice handwriting, spelling, vocabulary, and phonics fluency. They will also be slowly introduced to basic grammar concepts such as capitalization and punctuation. Students will complete their assignments and reading in our wonderful write-in readers!

Activities in this program come from the Sneaky Snacky Squirrel Game and Acorn's Game Set, a Winter Promise exclusive. Each week students will play a board game to reinforce what they've learned. These board games will also help kiddos memorize their spelling words and help them understand synonyms and antonyms.

FROM EASY CHAPTER BOOKS TO REAL READING BOOKS

READERS TO REAL BOOKS

YEAR LONG LA PROGRAM FOR 2ND - 3RD GRADE

Readers to Real Books is the final program from our Early Reading Language Arts and the final step in reading fluency. Students increase their reading speed and comprehension as they encounter fun Pine Hollow adventures in their write-in readers. Students are asked to consider their stories and tell what happened first or next, predict what took place just before or after the story, or share about the critter characters in the story.

Students are introduced to concepts such as dividing words into syllables or what a noun is, giving them a head start on starting structured grammar study in later elementary. Students will enjoy fun pages in their write-in reader that support a weekly phonics and comprehension goal. Interactive pages cover reading, phonics, comprehension, handwriting, spelling, vocabulary, and more.

Students will also love how they learn new concepts with hands-on activities using Acorn's Game Set each week. Our Write-In Readers introduce each section by describing what will be learned or focused on in the section. Our vivid stories come to life as your child meets friends and goes on adventures all year!

Then after the story (which usually ends on a cliff-hanger!), your student will need to complete the worksheet pages to move on to the next story!

WELCOME TO WINTERPROMISE'S MIDDLE GRADE LANGUAGE ARTS

LANGUAGE ARTS PROGRAMS FOR GRADES 3-6

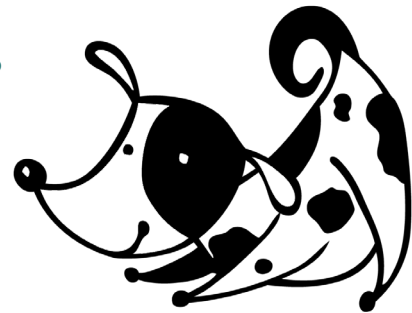

Welcome to our Middle Grade Language Arts!

You'll Meet Scout the Dog and Solve Mysteries with Cliff Hanger & so much more!
Our middle grades language arts programs are designed to create a solid foundation of grammar skills for grades 3 through 6. You'll focus on the different parts of speech, cursive handwriting, spelling & more! Each program features its own story line and related activities to keep readers engaged! The four different programs build upon one another!

eReading Schedules to match our Themed Programs!

Each eReading Schedule includes a list of the books for that year! Weekly comprehension questions and prompts can be used to help connect with your student over what they are learning!

These programs are divided by grade; however, these grade numbers are not intended to be strict! We **strongly encourage** our families to choose the program that will fit best for their students.

Placement Test

On our website, we have a Language Arts Placement Test to ensure the correct placement for your student!

A Unique Curriculum

- Active Learning Experiences

LA 4: SOLVING THE MYSTERIES OF GRAMMAR

YEAR LONG LA PROGRAM FOR 4TH GRADE

Solve the mysteries of basic grammar and continue cursive writing. Students will continue to work on mastery of basic grammar concepts as they review the parts of speech and their uses, and they'll continue to work on traditional cursive writing skills introduced last year. This program allows students to progress into more formalized creative writing projects and read books that average 150 to 250 pages in length, reading about a chapter a day.

INCLUDES:

- LA 4 Program Guide
- Reason for Handwriting - Bk D
- SpellWell Book C, CC & Key

PLUS!

LA 4 Student Four-Workbook Set

Solve baffling grammar mysteries such as the Case of the Dastardly Dognapping or the Fake Seuss Tale with Cliff Hanger, a tough sleuth and great wordsmith.

LA 5:
DIGGING INTO PARAGRAPHS
 YEAR-LONG LA PROGRAM FOR 5TH GRADE

Master the basics of writing a good paragraph. Scout has returned with all new adventures in Alaska that will guide students through the basics of writing a good paragraph. Creative writing is focused on constructing paragraphs of various types, from instructive to descriptive and more. Along the way, Scout will help students move forward with their grammar studies to more difficult concepts such as direct and indirect objects, clauses, verb phrases, and more while reviewing basic usage and mechanics, practicing their cursive writing skills, and vocabulary building.

INCLUDES:

- LA 5 Program Guide
- Scout’s Guide to Good Paragraphs
- SpellWell Bk D, DD & Key

PLUS!

LA 5 Student Four-Workbook Set
 Scout is back as his family moves to Alaska, where -- amid grammar and writing exercises, he has wild adventures and needs your grammar skills!

LA 6: EXPLORING WORD PICTURES

YEAR LONG LA PROGRAM FOR 6TH GRADE

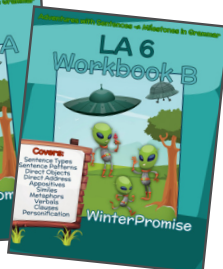

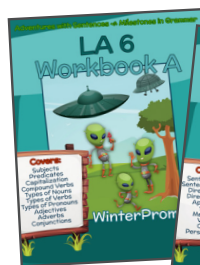

Focus on choosing the right words to express your written ideas. LA 6 has a fun space exploration theme that helps students add creativity to their writing with more effective use of vocabulary. Students will add words to an advanced word dictionary and utilize a spelling dictionary that includes a thematic and homonym index. They'll also sharpen skills such as developing interest-catching stories, using personification and more with their use of words. A dash of fun is added in their alien-themed spelling and grammar books; both really connect with students of this age.

INCLUDES:

- LA 6 Program Guide
- Advanced Words I Use When I Write
- Spelling Dictionary for Writers
- Alien Spelling Attack!
- First Contact

PLUS, LA 6 Student Two-Workbook Set

Go aboard a starship and seek out new grammar adventures. Captain Kendall, Ensign Will and the crew will encounter new situations in space that will engage even reluctant learners. Reinforces the grammar concepts introduced in LA 5. Consumable.

Book List: The Silver Branch, The Edge on the Sword, Medallion, The Puppeteer's Apprentice, Adam of the Road, Spy for the Night Riders, Ten Boys Who Made a Difference, Red Hugh, Prince of Donegal, Crispin at the Edge of the World.

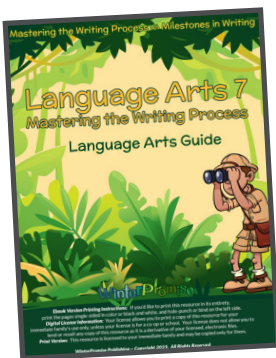

WELCOME TO WINTERPROMISE'S JR & SR HIGH LANGUAGE ARTS

LANGUAGE ARTS PROGRAMS FOR GRADES 7-12

LA 7: MASTERING THE WRITING PROCESS

YEAR LONG LA PROGRAM FOR 7TH GRADE

Study the writing process and produce five different papers this year.

Junior high students will master the writing process this year, and demonstrate what they learn in five different written reports. Along the way, they'll learn essential writing skills associated with non-fiction written reports such as outlining, note-taking, writing research, using transition words, assembling a bibliography, developing a "hook," and more. This program includes writing lesson worksheets, a student grammar book and worksheets, a vocabulary book, and a guidebook that offers discussion topics on key literary elements. Each of the five papers a student produces has topic suggestions linked to themed program topics, and students encounter a literature set that coordinates with our themed programs. In-depth information about each resource can be found online. You can choose a book set linked to our Ancient, Middle Ages & American History themes.

LA 8: DEVELOPING YOUR STORY WRITING

YEAR LONG LA PROGRAM FOR 8TH GRADE

Learn to construct a plot that speaks to readers and supports writing goals. Junior high students will learn how to develop a plot and structure, learning key skills such as 20 ways to plot, “hooking” a reader, stretching tension and the four “chords” of a scene. Interesting assignments allow students to evaluate books they’ve personally enjoyed or use general knowledge while they are learning. By the end of the year, students will write a short story using their new skills. This program includes a grammar workbook, “Write Great Fiction: Plot & Structure,” a vocabulary book, and a guidebook that offers discussion topics on key literary elements as well as creative writing suggestions and a literature set that coordinates with our themed programs. In-depth information about each resource can be found online. You can choose a literature set linked to our Ancient, Middle Ages & American History themes.

LA HIGH SCHOOL 1: INTRIGUING WRITTEN EXPRESSION

YEAR LONG LA PROGRAM FOR HIGH SCHOOL

Delve into how to use words to enliven writing of all kinds. High school students will discover how words can be used to intensify action, bring descriptions to life, animate characters, and deepen emotion. They'll develop topical word pages they can use for a lifetime to help them choose intriguing words in their writing. Students will also practice making every detail count in creating believable text, characters, places and events, whether in reports or fictional writing. This program includes writing lesson worksheets, a student grammar book and worksheets, the book "Write Great Fiction: Description and Setting," and a guidebook that offers discussion topics on key literary elements as well as creative writing suggestions and a literature set that coordinates with our themed programs. In-depth information about each resource can be found online.

LA HIGH SCHOOL 2: CREATING CAPTIVATING FICTION

YEAR LONG LA PROGRAM FOR HIGH SCHOOL

Construct characters in fiction and write a piece of mystery fiction all your own! High school students will learn how to create three-dimensional characters and develop their emotions. They'll learn to use these emotions to help along their story, and work on settings, dialogue and more as they discover how to develop a good mystery plot. Interesting assignments allow students to evaluate books they've personally enjoyed while they are learning. During the year, students will write a short story using their new skills. This program includes a grammar workbook, "Write Great Fiction: Characters, Emotion and Viewpoint," the intriguing book "Writing Mysteries," and a guidebook that offers discussion topics on key literary elements as well as creative writing suggestions and a literature set that coordinates with our themed programs. MIDDLE GRADE & JR HIGH EQUINE SCIENCE

YEAR-LONG SCIENCE PROGRAM FOR 3RD - 7TH

Study of the Horse

Spend a year learning oodles about horses: how horses move, all about their anatomy, a horse's gaits and the work horses do, their wants and needs, and how to care for them. As you go, you'll learn a little on how the horse has been a part of history, try all sorts of activities and experiments, and draw horses as well, all in our marvelous notebooking resource. We even include opportunities to expand the study beyond science with literature and writing suggestions, art appreciation and art projects, timeline and geography work. Price above reflects a printed guide and notebook. Ebook also available for guide and notebook. Many books can be borrowed from libraries. Can be completed in 2-5 hours per week. Fulfills 1 science and 1/2 art credits. The notebook is consumable; you can see sample pages here.

Saddle Up! TO LEARN MORE ABOUT HORSES

Caring for a Sick Horse

What To Do When Your Horse is Ill

The most important thing to do when your horse is sick is to call your veterinarian. You should also keep a record of your horse's symptoms, including when they started, how long they have lasted, and any changes in behavior. Your veterinarian will be able to help you determine the best course of action for your horse's health.

English Saddle & Western Saddle Distinctives

English Saddles: English saddles are designed for riding disciplines that require a close connection between the rider and the horse. They typically have a deep seat, a high cantle, and a long, straight leg flap.

Western Saddles: Western saddles are designed for riding disciplines that require a more upright posture and a deep seat. They typically have a high cantle, a deep seat, and a long, curved leg flap.

A Proper Clip

There are three main types of horse clips: the English clip, the Western clip, and the Arab clip. Each clip is designed to keep the horse's coat clean and free of dirt and debris.

THE HORSE IN HISTORY: Cattle & Cowboys

The horse has been a vital part of American history since the early days of the frontier. Cowboys used horses to herd cattle across vast distances, and horses were also used for transportation and labor.

Discover Horse Anatomy, Care, Motion, Balance & Behavior

MIDDLE GRADE & JR HIGH HUMAN BODY & FORENSICS

YEAR-LONG SCIENCE PROGRAM FOR 3RD - 7TH

Investigate Your Body's Life & Its Unique Way of Identifying You

Go “inside” your body’s systems to discover how you breathe, eat, think, move and feel. You’ll also learn about great milestones in medicine -- the germ theory, the invention of the microscope, sanitation, x-rays and more. Then, take a trip inside the basics of forensics -- fingerprinting, simple evidence provided by blood, handwriting clues, fiber and hair evidence and other basic forensic tools. Fantastic resources allow students to learn by observation and simple experiments. Designed to complement the comprehensive nature of our other programs, can complete in 2-5 hours per week.

INCLUDES:

- Human Body & Forensics Guide
- Your One-of-a-Kind Human Body Notebook
- Exploring the History of Medicine
- The Human Body Book
- The Human Body for Every Kid
- Detective Science

ELEMENTARY SCIENCE

HOOT & CHIRP, BUZZ & BITE

YEAR-LONG SCIENCE PROGRAM FOR 1st - 4th

Study of Plants, Birds & Insects

Study birds that sing, hunt and swoop and go up-close to examine insects and plant life. Students will observe birds and bugs and learn how plants thrive and survive around the globe. Resources with fantastic drawings, photos and illustrations allow students to learn by observation and simple experiments. Can be completed in 2-5 hours per week.

INCLUDES:

- Hoot & Chirp, Buzz & Bite Guide
- The World of Plants
- DK Eyewitness Bird
- Take a Backyard Bird Walk
- Insectigations
- Bug Patrol
- Ant Factory
- The Secret Lives of Backyard Bugs

NOT ELIGIBLE FOR CHARTER SCHOOL PURCHASE

CONSERVATION SCIENCE

YEAR-LONG SCIENCE PROGRAM FOR 7TH - 9TH

Ways to Reduce, Re-use, Recycle & Rethink for Good Conservation-Focused Choices

Discover fascinating facts about the ways our daily lives impact the environment -- for the better and for the worse. You'll learn how "vampires" in your home are living off of energy you pay for, how much a hamburger really costs, and so much more! Along the way, you'll complete practical activities that help you understand your daily choices, and how to rethink what you can do to be a responsible steward of the earth. Can be completed in 2-5 hours per week.

WINTERPROMISE CHESS A KNIGHT'S FIRST MOVE

BEGINNER CHESS FOR GRADES K - 4

Do you have a younger student that is interested in chess but doesn't know how to play?

This program is a great way to introduce your student to chess! Chess has many benefits educationally, logical thinking, self discipline, critical thinking skills, team work and much more! This program, designed for students from K-4th grade, takes kids on a chess journey.

Through interactive activities and engaging books they are taught the basics of how the pieces move, how to win the game, basic introduction to strategy, and given tips on other ways to keep improving and playing! This program is great for younger beginners, as we combine activities, reading, and even online tools to give your child a unique and fun experience.

If you are worried that you know as much or maybe even less than your child—have no fear! In our Teacher's Guide we offer parent helps and notes to tell you how to teach the particular subject you are studying even if it is brand new to you! Go on an adventure with your Young Knight this year!

INCLUDES:

- A Knight's First Moves Guide
- The Chess Tactics Workbook
- Charlie and the Chess Set
- Chess for Kids
- Vinyl Roll-Up Chess Set & Pieces

WINTERPROMISE CHESS

A KNIGHT IN THE KING'S COURT

BEGINNING CHESS FOR OLDER STUDENTS

This program is designed to challenge older students who are new to the game of chess. It teaches the same concepts that are in our Knight's First Moves program, but advances at an accelerated pace and branches into more advanced studies of chess.

The spine resource, "Mastering Basic Checkmate," helps the student use different combinations of pieces to end the game, providing the student with a foundation of patterns that will be used as they continue to master the game.

Then, students will master new tactics and strategic ideas, learn the rules of the game and how to record each game they play. Different websites are given to provide more opportunities for students to play chess against others and also learn about the rich history of the game.

Chess has been shown to improve concentration, and build problem-solving and critical thinking skills, teamwork and patience.

INCLUDES:

- Knights of the Kings Court Guide
- Mastering Your Army: Mastering Basic Checkmate
- The Chess Tactics Workbook
- Bobby Fischer Teaches Chess
- The Seirawan Factor
- Checkmate Ideas for Students
